# PRESENTATION

## 1 Eco-Chemistry for sustainable products®

July 1 | ENSIC, Université de Lorraine in Nancy, France

### Presentation

Join the future of chemistry: Sustainability in Action to Create Environmental Value

Discover innovative strategies, groundbreaking technologies and actionable insights at NANCY 2025, a symposium designed to highlight the importance of differentiating the chemical industry by creating authentic environmental value. Through an exchange specifically designed to foster an open and enriching dialogue, industry professionals, consultants and academia representatives will come together to address the challenges of creating a greener, more sustainable industry.

## 2 Sustainable pharmaceutical Industry

July 2 | ENSIC, Université de Lorraine in Nancy, France

### Shaping a Sustainable Future for Pharmaceuticals

Join us for the Nancy 2025 symposium dedicated to driving sustainability across the pharmaceutical industry. This year's conference focuses on innovative approaches and collaborative solutions to create a greener, more responsible future for pharmaceutical development and manufacturing.

Discover advancements in green chemistry, circular processes, carbon reduction, energy-efficient manufacturing, and sustainable supply chains. Connect with thought leaders, researchers, and policymakers to explore actionable strategies that will transform the industry and protect our planet.

Lead the way in building a sustainable pharmaceutical future at Nancy 2025.

# THE CONFERENCE VENUE

## THE BEAUTIFUL CITY OF NANCY!

Nestled in the heart of the Grand Est region, Nancy is a city rich in history while being firmly focused on the future. Known for its exceptional architectural heritage, including the famous Place Stanislas, a UNESCO World Heritage site, Nancy is also a leading university city. With a strong tradition in science, it hosts prestigious institutions such as the University of Lorraine and several internationally renowned research laboratories.

This dynamic and creative city, renowned for its commitment to innovation and research, is the ideal setting for hosting scientific congresses. Nancy stands out with its dense network of academic, industrial, and technological actors, fostering synergies between researchers, experts, and entrepreneurs. Its scientific ecosystem is further strengthened by the French Tech label and centers of excellence in fields such as healthcare, materials science, and engineering.

## GALA DINNER AT THE OPÉRA NATIONAL DE LORRAINE

The Gala Dinner will take place in the elegant Foyer of the Opéra National de Lorraine, a stunning venue in the heart of Nancy. This historic setting offers the perfect atmosphere for an unforgettable evening of fine dining and networking, surrounded by the charm and grandeur of this renowned opera house.

## THE ENSIC CAMPUS

The conference will be held on the École Nationale Supérieure des Industries Chimiques (ENSIC) campus, in the old town district, in the center of Nancy, France.

The École Nationale Supérieure des Industries Chimiques (ENSIC) is a prestigious engineering school founded in 1887. Renowned for the quality of its teaching in chemical and process engineering, it trains specialists capable of designing, optimizing and managing complex industrial processes. As part of the Université de Lorraine, ENSIC works closely with companies and research laboratories. Its graduates are highly sought after in sectors such as chemicals, pharmaceuticals, energy and environment.
